

## Is this what we are getting?

While Candetti investigate the viability of a pool in our region, the Barossa Council has enlisted the construction company to develop an aquatic and fitness centre in Tanunda, which is now in the early stages of construction.

The \$13.5 million project is an addition to the existing recreation centre, which includes an upgrade of the current administration area and basketball courts.

A new building will also be constructed, encompassing a swimming/lap/recreation pool and a learn to swim/program/leisure pool with lagoon entry.

An additional basketball court complex and health and fitness facilities and a community area complete the project.

With Candetti Constructions developing the Barossa's aquatic facility, is this what the south coast can look forward to?

**OFFICIAL SIGNING:** Alexandrina Mayor Kym McHugh and City of Victor Harbor Mayor Mary Lou Corcoran officially sign up with Candetti Constructions' Alex Candetti to investigate the establishment of an aquatic centre on the south coast.
